CAREER OBJECTIVE

Enthusiastic and self-motivated **First Year Computer Science Engineering** student at **Mepco Schlenk Engineering College**, affiliated to Anna University. Passionate about programming, problem-solving, and cloud technologies. Seeking opportunities to enhance technical skills and gain practical exposure through internships and technical projects.

EDUCATION

Bachelor of Engineering (B.E) – Computer Science and Engineering
Mepco Schlenk Engineering College

Affiliated to Anna University

Year of Joining: 2025

Current Year: First Year

TECHNICAL SKILLS

- **Programming Languages:** Advanced C, Python
- **Concepts:** Problem Solving, Logical Thinking, Basic Data Structures
- **Tools:** VS Code, GitHub
- **Cloud:** AWS Cloud (Orientation Program – Feb 22, 2026)

ACADEMIC PROJECTS

- **To-Do List Application (Python)**
 - Developed a console-based task manager.
 - Implemented features to add, view, and delete tasks.
 - Strengthened knowledge in lists and conditional statements.
- **Electricity Bill Calculator (Python)**
 - Designed a program to calculate electricity charges based on slab rates.
 - Applied conditional logic and arithmetic operations.
- **Quadratic Equation Solver (Python)**
 - Built a program to calculate discriminant and classify roots.
 - Improved understanding of mathematical logic implementation.

WORKSHOPS & SEMINARS

- Participated in AWS Cloud Orientation Program (Feb 22, 2026).
- Attended seminar on "AI: Pilot to Production – Challenges and Opportunities."

SOFT SKILLS

- Quick Learner
- Analytical Thinking
- Team Collaboration
- Calm Under Pressure

AREAS OF INTEREST

- Software Development
- Cloud Computing
- Artificial Intelligence
- Competitive Programming
